

UFOpro

▶ PLATFORM AT GLANCE

The UFOpro is the latest Kathrein headend platform for next generation hospitality television applications. The configurable modular chassis offers a range of input and output module options including Satellite (DVB-S/S2X), HDMI and IP reception as well as Cable (DVB-C/T) and IP outputs. Advanced architecture is designed to save space, energy and resources as well as to meet all requirements that a full hospitality network can have.

▶ APPLICATIONS

- Hospitality TV Systems
- Hotel TV
- DVB-C SMATV Headend
- Multi Subscriber Apartments (MDUs)

▶ HIGHLIGHTS

All in One Platform

Large selection of Input and Output modules including DVBS/S2, DVBC/T, HDMI and IP technologies for delivering TV and rich media experience.

Compact Chassis with 6 Module Slots

1RU mechanical housing with hot-swappable modules on rear panel and dual redundant PSU for highest reliability.

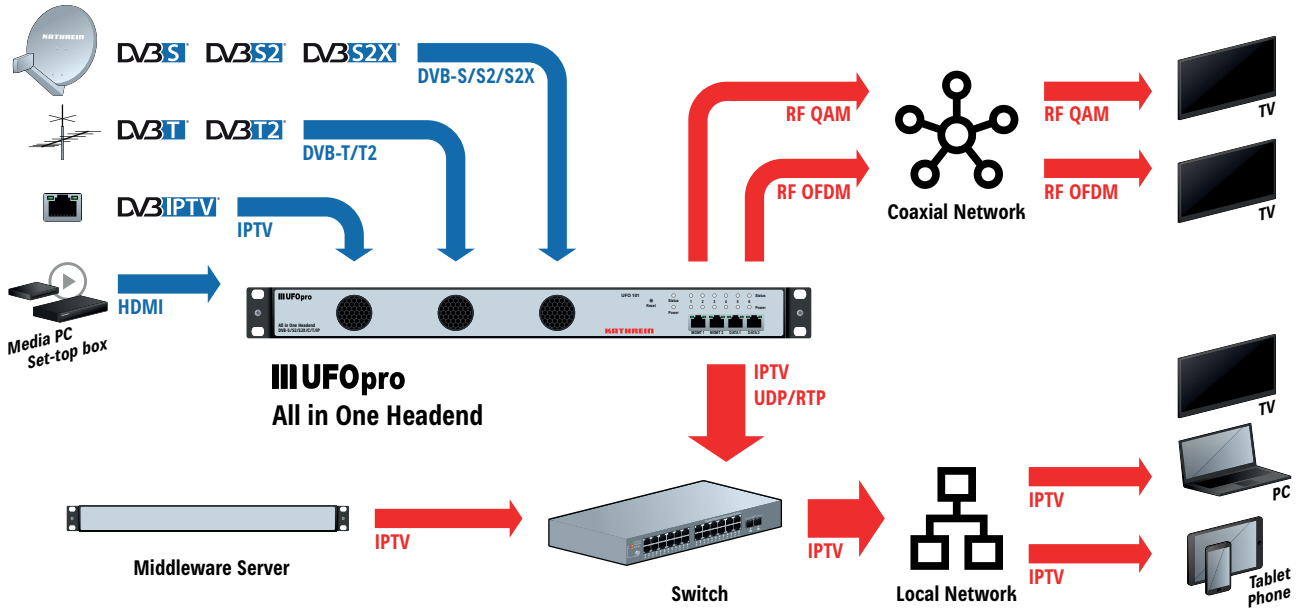

Future Proof Technologies

Built-in IP module to be used as IPTV Streamer up to 120 inputs and 120 outputs via 2 Gigabit RJ45 ports.

Easy Installation | Centralized Management

Intuitive and advanced web interface for local and remote management. PID and LCN functions for central service management.

APPLICATION DRAWING

Technical Data

Head Unit		
Slots		6 Slots (hot swappable modules)
Input/Output		4x RJ45 (Gigabit Ethernet) 2x Data (IN/OUT)/2x MGMT
Protocol		UDP/RTP
IP services		ARP, Ping
Transmission type		Unicast/Multicast
Transport stream		120x SPTS IN/OUT MPTS
System Data		
Power Supply		Dual Redundant
Power	W	120
Input Voltage	V/AC	100-240
Operating Temperature	°C	0-50
Operating Humidity	%	< 95
Weight	kg	
Dimension	mm (WxHxD)	482,6 x 44,5 x 435 1RU
